

EXECUTIVE BIOGRAPHY

Thuy Nguyen

Head of Cable Segment

Intel®

Thuy Nguyen leads the Cable Segment for Intel's Network and Edge Division (NEX). Intel is focused on helping cable MSO's and the cable partner ecosystem transform HFC networks to meet the ever-growing demand for more broadband bandwidth.

Thuy supports the Intel team developing access network solutions enabling Network Functions Virtualization to help Cable MSO's scale their HFC networks for the next decade of growth and network transformation.

Prior to Intel Corporation, Thuy has spent more than 20 years working in the Cable broadband industry where he previously served Comcast as GM & VP of Engineering. Thuy has worked in Network Engineering capacities for Rogers Cablesystems, @Home Network (Excite@Home), Comcast, and Charter. Thuy has also worked for Cisco, Alcatel-Lucent, and startup companies developing cable broadband and wireless solutions.
